2 WALK AND CYCLE
creating smarter connections

The logo for 2 Walk and Cycle, featuring a blue stylized person walking and a green stylized person on a bicycle, with the text "2 WALK AND CYCLE" below them. The word "AND" is in a smaller font. Below the main text is the tagline "creating smarter connections" in a cursive font, with a green chain link icon at the end.

15:05	Keynote Speaker - Alistair Woodward, University of Auckland <i>Good health, cycling and walking. Five myths.</i>
15:50	Conference Closing
16:00	Conference Concludes

PRESENTATION FORMAT DETAILS

<p>Conventional Lectern Presentation (Oral Presentation) - Typical duration: 15-30 minutes A presenter stands in front of the audience and delivers an oral presentation (often using PowerPoint), followed by an opportunity for questions after.</p>	<p>Rapid-Fire Lectern Presentation - Typical duration: 8-10 minutes including questions Similar to conventional oral presentations, however presentation times are more limited and speakers may be limited in the number of slides they can present.</p>
<p>Poster Board Presentation - Typical duration: 45-60 minutes Multiple presenters prepare a large print poster summarising their work. A time is set aside for delegates to visit and view different posters and for presenters to provide an overview of their work and answer any questions about it.</p>	<p>Round Table Presentation - Typical roundtable session duration: 30-45 minutes Multiple presenters each run a session at a large table where people can sit in and listen or interact as required. Presenters can use visual aids, a laptop, or just rely on notes. Multiple sessions can allow delegates to choose more than one presenter to sit in on.</p>
<p>Workshop Presentation - Typical duration: 30-60 minutes A moderator runs the session and there may be a guest speaker to spark some initial thoughts or physical demonstrations or activities, but the delegates present provide most of the interaction and discussion.</p>	<p>"Speed Dating" Presentation - Typical duration: 60 minutes (e.g. 6 x 10-minute sessions) A series of presenters at "stations" give a short presentation to an interested group of delegates and answer any questions. At regular times (e.g. every 10 minutes) a bell/sound indicates that it is time for delegates to move to another station of their choice.</p>
