

Guidelines for papers

Thank you for offering to give a presentation at the 2WALKandCYCLE 2020 conference; we're looking forward to your contribution. The following summarises our requirements for any papers that accompany your presentation.

Please note that the abstract and author biography that you previously provided will be included on the conference website, the basic biographical details will also be viewable in the conference App.

Peer reviewed conference papers

A paper template is provided on the [conference website](#) – **please use ONLY this template when submitting your paper.** A conference paper can provide more in-depth and detailed analysis/research of a topic than can be provided by your presentation alone. These papers will be reviewed by external referees to ensure a good standard of analysis, evaluation and reporting. The final papers will be published in the electronic conference proceedings for all delegates.

Deadline

All papers should be uploaded in the presentation portal by Monday 13 July 2020.

Peer Review

All papers will be reviewed by (ideally) two external referees. Feedback from the referees will be returned to authors by Monday 3 August 2020.

Revised Paper

If changes are required to be made to your reviewed paper, authors will have until Monday 24 August 2020 to make the necessary revisions and re-submit their paper for inclusion in the conference proceedings. You will be informed if any further changes are required.

Note: Papers that do NOT conform to the required standards may be excluded from publication in the conference proceedings (although you may still present at the conference).
