

Presenter Information

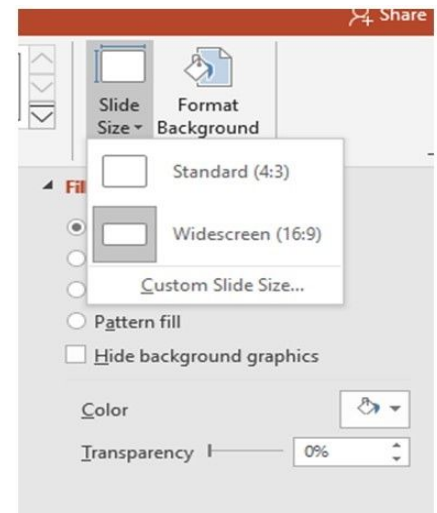

Powerpoint Presentation

Presentations should be in widescreen format (16:9)

Make sure fonts are large and easy to read

When onsite visit the speaker prep room to upload your presentation.

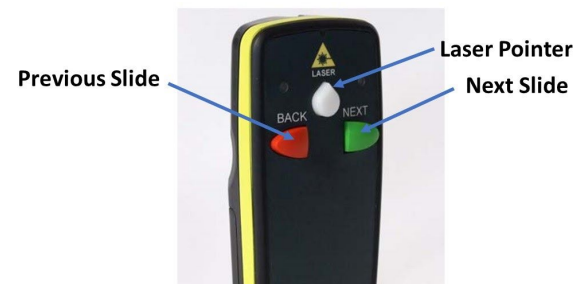

You should bring your presentation on a USB drive. If your presentation has embedded videos or specific fonts, it is recommended you also provide these as separate files.

Slide Remote

Your forward, back slide changer with a laser pointer.

There will also be a foldback monitor on the floor in front of the stage, this will show your slides.

Timer

The timer will display your remaining speaking time.

Microphones

Static microphones will be on the lectern however, If you are likely to walk around on stage, then you will need a radio lapel microphone.

If we are recording or streaming audio, every presenter/speaker will require a microphone.
